

**THE CHINESE UNIVERSITY OF HONG KONG**

**DEPARTMENT OF INFORMATION ENGINEERING**

**EMPLOYMENT SURVEY  
OF  
2016 I.E. GRADUATES**

**APRIL, 2017**

The Department of Information Engineering conducts annually an employment survey on the year's graduates in order to obtain information about their career destinations after graduation. The thirteenth survey was conducted in April 2017 by means of questionnaires to all 2016 I.E. Graduates. The total number of graduates is 103. Out of 103 graduates, 66 provided valid responses, which gave a response rate of 64.08%. From the reply, we know that around 18.2% graduates were further their studies on a full-time basis. It was also encouraging that 12% graduates with full-time employment study in part-time mode after work. The commercial and industry sector provided employment opportunities for as many as 81.5% of the graduates who were in employment. This was followed by Education sector, which was 11.1%. Both Social and Public Organization sector and the Government was 3.7%. Unless otherwise specified, percentages quoted in this report are based on the number of respondents who are currently in employment.
