Seminar

Services and Research at CNNIC

by

Dr. Xiaodong Lee

**VP & CTO of CNNIC (China Internet Network Information Center)
and the Associate Professor of Chinese Academy of Sciences**

Date : 15 June, 2009 (Mon.)
Time : 3:30-5:30pm
Venue : Room 833, Ho Sin Hang Engineering Building
The Chinese University of Hong Kong

Biography

Dr. Xiaodong Lee is served as the VP & CTO of CNNIC (China Internet Network Information Center), and the Associate Professor of Chinese Academy of Sciences. Dr. Lee has more than ten years experiences on DNS related technologies, and is the technical contact of ".CN".

His research interests focus on DNS related technologies (e.g., DNS software, security, analysis and measurement) and Trustworthy Internet (IDM, anti-phishing, BCM, and so on). He is also active in IETF standard activities, now he is the co-chair of IETF EAI working group, and the co-author of RFC4713.
