Bachelor of Engineering (Hons) in Information Engineering

**Admission Channels**

**JUPAS**
For secondary school students taking HKDSE. Admission is based on the Best 5 HKDSE subject results with subject weighting.

**Non-JUPAS (Local)**
For local applicants who are not using the HKDSE results for admissions purposes, such as Associate Degree/Higher Diploma, GCE-AL, IB, SAT/AP and other overseas qualifications recognised by our university.

**Non-JUPAS (Senior Year Entry)**
Local applicants who possess Associate Degree/Higher Diploma qualifications may apply for Senior Year admission.

**International**
For non-local applicants with international qualifications such as GCE-AL / International-AL, IB, and other high school qualifications from a recognised institution.

**Mainland**
Mainland China students who are current Gaokao candidates must apply through the National Colleges and Universities Enrolment System (全国普通高校统一招生计划).

*Note: Applications of the Non-JUPAS and International schemes will be assessed on a case-by-case basis.*

**Testimonials**

CHAN Sum-yuet
2022 IERG graduate. Currently a Graduate Programmer at theOrigo

The IE programme provides opportunities for me to explore different technologies and full stack assessments, contributing to valuable experiences on my resume and greatly benefiting my career.

HUI Sze-ho
2022 IERG graduate. Currently an Assistant Solution Engineer at Huawei (Hong Kong)

The IE curriculum equipped me with solid foundations in software and hardware development and soft skills such as collaboration and a problem-solving mindset, which are indispensable in working as a leader.

Department of Information Engineering
The Chinese University of Hong Kong

To Nurture Engineering Leaders for Building a Connected and Secure Smart Society of the Future

The IERG programme provides students the greatest flexibility to pursue their career goals by developing their specialties. Students may opt for one or two streams of specialization to facilitate their job hunting.

Curriculum

Generations

Year 1: Foundation
- Problem Solving by Programming
- Linear Algebra
- Multivariable Calculus
- Intro to Information Engineering
- Intro to Systems Programming
- Basic Analog and Digital Circuits
- Electronic Circuit Design Lab

Year 2: Intermediate
- Discrete Mathematics
- Complex Variables
- Data Structures
- Signals and Systems
- Probability Models and Applications
- Computer Networks
- Principles of Communication Systems

Year 3: Advanced
- Web Application or Mobile Network Application Development
- Information and Software Engineering Practice
- Microcontrollers and Embedded Systems
- Information Infrastructure Design

Year 4: Specialized
- Final Year Projects I & II
- and Major Electives

60+ Major Electives for students to choose, from the fields of Big Data, Information Processing, Cyber Security, Internet Engineering, Telecommunications, Computer Networking, Software Engineering and more!

Graduation Requirements
- Major Requirement: 75 units
- University Core Requirement: 39 units
- Free Electives: 9 units
- Total: 123 units

Streams of Specialization

Big Data Systems & Applications
- Problem Solving by Programming
- Linear Algebra
- Multivariable Calculus
- Intro to Information Engineering
- Intro to Systems Programming
- Basic Analog and Digital Circuits
- Electronic Circuit Design Lab

Internet Engineering
- Discrete Mathematics
- Complex Variables
- Data Structures
- Signals and Systems
- Probability Models and Applications
- Computer Networks
- Principles of Communication Systems

Cyber Security
- Web Application or Mobile Network Application Development
- Information and Software Engineering Practice
- Microcontrollers and Embedded Systems
- Information Infrastructure Design

Information Science
- Final Year Projects I & II
- and Major Electives

Career Prospects

The IERG programme equips our students with well-rounded engineering knowledge and solid experience in innovative technologies. They are of the highest caliber and committed to study and work. Our graduates have established excellent reputations in the industry and have embarked on promising careers. Around 10% of our fresh graduates continue for full-time studies every year.

Job Nature of IE Graduates in 2021

- Software Design & Development: 46.51%
- Project Management: 13.95%
- System Solutions & Services: 6.98%
- Information Technology Consulting: 6.98%
- Teaching: 6.98%
- Multimedia & Video Production: 4.65%
- FinTech: 4.65%
- Data Comm & Internet Engineering: 4.65%
- Scientific & Research Work: 2.33%
- Administration: 2.33%

* Percentages might not total 100% due to rounding. Statistics based on the survey conducted with IE graduates in March 2022.
