FACULTY OF ENGINEERING
Information Engineering
<u>Study Scheme</u>

M.Phil. – Ph.D. Programme in Information Engineering (Full-time and Part-time)

Please read the Study Scheme in conjunction with the email on "Completing certain Improving Postgraduate Learning modules in the first year of study (for fulfilment of Ph.D. and Taught Doctoral candidacy requirements) with retroactive effect from 2022-23 intake" dated 27 October 2023: https://www.gs.cuhk.edu.hk/download/IPL.pdf.

(Applicable to students admitted in 2022-23)

B. Ph.D. Student (Pre-candidacy)

Ph.D. students enter the department in the pre-candidacy stage. In this stage, students have to complete three major requirements: the coursework requirement, the first-year examination, and the thesis proposal. Students must complete and fulfill all these requirements within the "maximum period for fulfilling candidacy requirements". Details of the requirement are listed below:

1. *Coursework Requirement*

(a) Lecture courses
   (i) At least one Faculty of Engineering core course must be taken. To satisfy the Faculty core course requirement, students must achieve at least a grade B in the course.
   (ii) Ph.D. students have to pass at least 4 graduate courses (each of 3 units or more) before the submission of the thesis proposal.

   Courses outside the Department of Information Engineering Course List or Faculty of Engineering Core Course List may be selected on the recommendation of the thesis supervisor and with the approval of the Division Head.

(b) Thesis research courses
   In addition to the coursework requirement mentioned above, Ph.D. students must register for the relevant thesis research course in every term throughout his/her study period.
   - Full-time Ph.D. (pre-candidacy) students: IERG8006
   - Part-time Ph.D. (pre-candidacy) students: IERG8003

2. *Candidacy Examination (To be taken within 15 months after joining the degree programme)*

   Ph.D. students are required to take an oral-plus-written examination within 15 months after joining the degree programme. For this exam, a written report is a compulsory component. It will be graded by the Division of Information Engineering Graduate Panel. The grade for the written component will be combined with the grade of the oral component to arrive at the final decision as to whether the student

has passed the examination. Students must follow the "procedure and guidelines for the first-year written and oral examination".
(https://intraweb.ie.cuhk.edu.hk/v3/pg/download/GuidelinesforEngOf1stYearPhDstudentExam2021b.pdf)

Outcomes

The Division of Information Engineering Graduate Panel recommends one of the following four possible decisions:

(i) Pass

(ii) Weak Probation*

(iii) Strong Probation*

(iv) Fail*

Remarks:

Penalty will be imposed on outcomes marked with * (Please refer to the website https://intraweb.ie.cuhk.edu.hk/v3/pg/download/Outcome_details_for_Candidacy_Examination.pdf)

3. *Thesis Proposal* (To be taken at the end of the second year)

Each Ph.D. student must submit a research proposal and pass an oral examination. The examination panel should be set up according to Division of Information Engineering guideline.

C. Ph.D. Student (Post-candidacy)

1. *Coursework Requirement*

(a) Lecture courses

Together with the pre-candidacy course requirements, students are required to pass a total of at least six courses (18 units) from the Department of Information Engineering Course List. Courses outside the Department of Information Engineering Course List or Faculty of Engineering Core Course List may be selected on the recommendation of the thesis supervisor and with the approval of the Division Head.

(b) Thesis research/monitoring courses

Ph.D. students must register for a thesis research course every term throughout his/her study period.

- Full-time Ph.D. (post-candidacy) students: IERG8012

- Part-time Ph.D. (post-candidacy) students: IERG8006

- Continuing Ph.D. students: IERG8003

2. *Other Requirements*

(a) Students must fulfill the Term Assessment Requirement of the Graduate School. For details, please refer to Clause 13.0 "Unsatisfactory Performance and Discontinuation of Studies" of the General Regulations Governing Postgraduate Studies which can be accessed from the Graduate School Homepage: https://www.gs.cuhk.edu.hk.

(b) Students are required to submit a research thesis and pass an oral examination for graduation.

(c) Students are required to complete an Improving Postgraduate Learning (IPL) module on "Observing Intellectual Property and Copyright Law during Research". This is an online module and relevant information can be accessed from the website: https://www.cuhk.edu.hk/clear/prodev/ipl.html.

(d) Students are required to attend an IPL module on "General Safety". Students who are prescribed laboratory safety training shall take the course and, where appropriate, examinations in their first year of study, with effect from the 2022-23 intake. Students should consult Division for details.

(e) Complete an IPL module on "Research Data Management Training". This is an online module and relevant information can be accessed from the website: https://www.cuhk.edu.hk/clear/download/IPL-Researchskills.pdf. Students are required to complete and pass the module in their first year of studies, with effect from the 2022-23 intake.

(f) Students are required to complete an online Research Ethics Training (RET) module on "Publication Ethics" offered by the Office of Research and Knowledge Transfer Services (ORKTS) and obtain a valid Publication Ethics Certificate for graduation. Relevant information can be accessed from the RET website at https://www.research-ethics.cuhk.edu.hk/web/.

Department of Information Engineering Course List

Code	Course Title	Unit
IERG5020	Telecommunication Switching and Network System	3
IERG5040	Lightwave System Technologies	3
IERG5050	AI Foundation Models, Systems and Applications	3
IERG5090	Advanced Networking Protocols and Systems	3
IERG5100	Advanced Wireless Communications	3
IERG5110	Signal Processing in Wireless Communications and Sensing	3
IERG5130	Probabilistic Models and Inference Algorithms for Machine Learning	3
IERG5200	Channel Coding and Modulation	3
IERG5230	Algorithms and Realization of Internet of Things Systems	3
IERG5240	Applied Cryptography	3
IERG5250	Edge AI and Applications	3
IERG5254	Network Information Theory	3
IERG5280	Wireless and Mobile Networking	3
IERG5290	Network Coding Theory	3
IERG5300	Random Processes	3
IERG5310	Security and Privacy in Cyber Systems	3
IERG5320	Digital Forensics	3
IERG5340	IT Innovation and Entrepreneurship	3
IERG5350	Reinforcement Learning	3
IERG5360	Program Representation, Modeling and Understanding for Software Security	3
IERG5380	Quantum Information Processing	3
IERG5400	Theory of Probability	3
IERG5450	AI for Science	3
IERG5460	Multimodal Machine Learning	3
IERG5470	Convex and Stochastic Optimization and their Applications	3
IERG5590	Advanced Topics in Blockchain	3
IERG5670	Computational Imaging Systems and Algorithms	3
IERG6120	Advanced Topics in Information Engineering I	3
IERG6130	Advanced Topics in Information Engineering II	3

IERG6154	Network Information Theory	3
IERG6200	Advanced Topics in Computer Networks	3
IERG6210	Advanced Topics in Information Processing	3
IERG6270	Advanced Wireless Communications	3
IERG6280	Network Economics	3
IERG6300	Theory of Probability	3
