Connecting the Dots with CTO
By
Mr. Danny LI
Co-Owner & Chief Technology Officer, HKBN Group

Date : **4 November 2022 (Friday)**
Time : **10:00am to 11:00am**
Venue : **Rm801, Ho Sin Hang Engineering Building, CUHK**

Abstract

What is the structural similarities between a legal document and a computer program? How does this relate to you? How to prepare yourselves in the modern workplace? What to do to embrace yourselves in all the new & unforeseeable challenges? Come to join the talk of HKBN CTO and learn from his perspective.

Biography

Danny is in charge of the HKBN's Network Planning, Development, Implementation, & Operations. He oversees network strategy for the future development of HKBN's infrastructure. Danny is also responsible for HKBN's Information Security strategy & operations, making sure HKBN's IT and Network Infrastructure are designed with best security practices to minimize the operational risks to security threats. Before that, Danny had been the Regional Director spearheaded the managed security services division, and Network AGM of a regional MPLS IP VPN service provider. Danny has over 25 years of extensive engineering, operations, sales & marketing experience in the field of Telecommunications, Cloud, IP VPN, ISP, and Data Centre.
